How can you use WITS to solve a conflict?

**Walk away**
Leaving takes you out of the conflict!
Do it calmly and walk somewhere safe, like a classroom.

**Ignore**
Kids who bully often want a reaction
Ignore them and they won’t get it from you.
Stay calm and keep doing what you’re doing.
Hang out with kids that are kind and support you.

**Talk it out**
Bullying is not cool!
Say, “Please stop”, tell them “That’s rude”. Use “I” statements, like “I feel hurt when you say that”. Talk firmly, without name-calling.

**Seek help**
Make a list of people you trust
Get help if you or someone could get hurt, if you’re afraid, if you can’t handle it alone, or if your attempts did not work. Seeking help is not tattling. When you get help, you’re making your school and community safe for everyone!

WITS is a program created at the University of Victoria and is supported by the Rock Solid Foundation.
